ABOUT INDIA MINING WEEK 2026

India Mining Week 2026 stands as India's Largest Mining Summit, serving as the definitive gathering of government leaders, policymakers, mining companies, investors, technology innovators, equipment manufacturers, and industry stakeholders from around the world. The event provides a unique platform to discuss policy, innovation, sustainability, and investment opportunities while fostering strategic partnerships that will shape the future of mining, minerals, and resource development.

As India accelerates investments in infrastructure, manufacturing, energy security, and critical minerals, the mining sector is emerging as a key driver of economic development. India Mining Week 2026 will provide a dynamic platform for knowledge exchange, business networking, technology showcase, policy dialogue, and investment opportunities across the entire mining value chain.

Featuring a high-level conference, international exhibition, technical sessions, and strategic networking opportunities, the event aims to foster partnerships, showcase innovation, and support the development of a modern, efficient, and sustainable mining ecosystem while strengthening India's position as a global mining and resource development hub.
